ABOUT ME

I'm a junior software developer with a keen passion for UI/UX design. I strive to build visually engaging and intuitive apps and websites, always aiming to improve the user experience. I'm eager to discover new opportunities that allow me to grow and refine my skills.

EDUCATION

Higher Vocational Training Diploma in Multiplatform Application Development

CIFP Villa de Agüimes
2023 - 2025

Degree in computer engineering

Las Palmas de Gran Canaria
university
2020 - 2023 (Unfinished)

High school

U.E. Generalísimo Francisco de
Miranda
2013 - 2018

LANGUAGES

- Spanish - Native
- English - Professional
- German - Basic
- French - Basic

EXPERIENCE

Web development internship

Reply Next - 10/03/2025 to 15/05/2025

My internship at Reply Next consisted in the creation of new functions, style changes and general maintenance of the app, mainly working on front end, an example of my work would be Reply Next's main page. I also took lead in migrating the codebase to a new framework and transitioned the application state management from traditional thunks to Redux Toolkit.

PROJECTS

Sportcrew web

This was my final project in my vocational training, a simple yet engaging social media platform on which you can upload images, like and comment posts or chat with other users privately

SKILLS
